

Tubular Steel, Inc.

Since 1953
Performance you can count on

Low-Temp Seamless Pipe

As a specialist in seamless pipe products, **Tubular Steel, Inc.** maintains a full range of seamless pipe inventory designed for cold weather applications. TSI's inventory of 6,000 separate combinations and 140 acres of storage means more pipe OD's and walls to shorten your sourcing time.

Our quality products withstand some of the most extreme conditions on the planet.

Tubular Steel, Inc. sources from the best foreign and domestic suppliers ensuring our material provides higher strength, lighter weight and improved toughness even in the most volatile terrain.

This picture (left) is an offshore drilling site in an arctic environment operating while completely surrounded by ice.

In this situation, **Tubular Steel, Inc.**'s superior low-temp seamless pipe is tested under consistently harsh temperatures giving *Performance You Can Count On* a whole new meaning.

Product Offering:

- ASTM/ASME A/SA 333 Grade 6
- Sizes through 24" OD
- Heavywalls to schedule 160 and XXhvy
- Saw cutting to order that buyers count on
- Designed to meet the stringent requirements of the pipeline and offshore industries

Please call one of our **Tubular Steel, Inc.** regional sales offices to speak with an expert about heavywall, non-schedule pipe sizes.
