# The Tubular Steel Advantage

- One call puts you in touch with experienced, coast-to-coast Sales Experts.
- Individualized attention means quick turnaround - same day and next day deliveries.
- Over 250 years of combined Product Team experience means unsurpassed market knowledge and sourcing solutions.
- Dedicated Sales Teams understand your business and work with you to provide real solutions.

## The Products You Need, Right When You Need Them

- Wherever you are located in the United States, Tubular Steel brings our warehouses to your door every day.
- With Salespeople expertly trained in all areas of the steel industry, you can expect superior service from quote to delivery.
- Our sales force is available when you need them and can provide same day or next day delivery across all product lines and services.

## National Reach, Personalized Service

Though remaining in business since 1953 is an accomplishment, the values sustained and progress made in those years are what make Tubular Steel, Inc. unique in the steel service center industry.

**Tubular Steel, Inc.** is continually expanding into new markets, streamlining and improving operations to provide unsurpassed customer service.

**The Value of Partnering with Tubular Steel, Inc.** We continue to lead the industry by providing unparalleled service that competitors refuse to match. Our Sales Force understands the value of your business and has the resources to keep you in stock and on time.

## Locations Across the Nation

We're proud to stock five strategically-located U.S. facilities with one of the widest breadths of product offerings in the industry, and our strict maintenance schedules ensure equipment and facilities experience less downtime. This allows customers to operate on tighter schedules and with less inventory on hand.

**Cleveland, OH**

**New Haven, MO**

**Houston, TX**

**St. Louis, MO**

**Los Angeles, CA**

## Inventory You Can Count On

Since 1953, Tubular Steel, Inc. has established buying relationships with leading steel manufacturers worldwide. With five strategically located operations in the United States, we stock over 6,000 separate combinations of carbon and alloy pipe/tube products, providing our customers and markets with one of the widest breadths of product offerings in the industry.

Tubular Steel, Inc. specializes in hard-to-find and common sizes. Visit [tubularsteel.com/products](https://tubularsteel.com/products) or contact one of our sales experts for a detailed stock list.

## We Bend Difficult Parts Without Leaving a Mark

Through our Metalcraft Enterprises facility, we fabricate steel tubing for unique applications, giving equipment a distinctive look to complement the overall function and style. Metalcraft is able to leverage Tubular Steel's international buying power to obtain tubing at the lowest possible cost, and through this partnership, our customers benefit from the highest quality parts at competitive prices.

## Value-Added Services

- Precision Cold Saw and Lathe Cutting
- Miter Cutting
- Band Saw Cutting to 26" OD
- Deburring
- Torch Cutting to 60" OD
- Machine and Torch Beveling
- Wheelabrating
- Heat Treating
- Boring
- ID & OD Chamfer
- Bar Code

## MECHANICAL TUBING

### AS WELDED

ASTM A513 Type 1, 2  
ASTM A135 Non Hydro  
ASTM A787  
Drawing Steel  
Aluminized  
Galvanized

### DRAWN TUBING

ASTM A513 Type 5, 6  
SAE J524, J525  
SAE SA179, SA214  
Up to 110,000 Min Yield  
ST52.3

### SEAMLESS TUBE

ASTM A519  
ASTM/ASME A/SA 105  
ASTM/ASME A/SA 106 B&C  
ASTM/ASME A/SA 333 1/6  
API 5CT L80, N80, P110  
Equivalent  
NACE MR 0175  
Annealed, Normalized QT

## STRUCTURAL TUBING

### ROUNDS

ASTM A500 B&C  
ASTM A252 2&3  
ASTM A1085  
ROPS / CVN Tubing  
Up to 70,000 Min Yield  
Wheelabrating Available  
Melted & Manufactured in the USA in stock

### SQUARE & RECS

ASTM A500 B&C  
ROPS / CVN Tubing  
ASTM A1085  
HSLA 70, 80, 100, 110 Yields  
Melted & Manufactured in the USA in stock

## PIPE

### SEAMLESS PIPE

ASTM/ASME A/SA 106 B&C  
ASTM/ASME A/SA A333 1/6 / Low Temp  
API 5LB, X42, X52, X60, X65. PSL 1 or 2  
NACE MR 0175  
EN 10204 3.1B  
As Rolled, Normalized, QT  
Controlled Chemistries

### ERW, DSAW, CW Pipe

ASTM/ASME A/SA 53 A&B  
API 5LB, X42, X52, X65  
Lacquered or Bare  
50,000 Min Yield Available  
Melted & Manufactured in the USA

## STAINLESS STEEL

### FULL FINISH & ORNAMENTAL TUBING

ASTM A554, A269, A249  
ASME A/SA A249, A269  
All in Grades 304/304L, 316/316L

### TGP BAR / PSQ

ASTM A582/A484  
Grades 316, 41

## SEAMLESS SQUARES

Carbon & Alloy Steels  
Up to 100,000 Yield Strength  
Tight Corner Radius 1/12" or 2t  
Charpy V-Notch to 20 avg  
ft/lbs -58°F

## Industries We Serve

From the depths of offshore drilling to new heights in space exploration, Tubular Steel, Inc. remains a service leader across many industries.

In industries where regulations continue to mount, our product specialists will keep you ahead of any changes, ensuring your products meet and often exceed industry specifications. We provide all of this in partnership with approved domestic and foreign suppliers.

<b>Oil/Gas</b>	<b>Material Handling</b>
<b>Energy</b>	<b>Construction</b>
<b>Automotive</b>	<b>Power</b>
<b>Agriculture</b>	<b>Transmission</b>
<b>Transportation</b>	<b>Mining/Excavation</b>
<b>Machinery</b>	

## Exceptional Quality Assurance

Quality products come from quality focused companies, which is why ASME shops and other quality driven customers trust Tubular Steel to meet their strict standards and audits.

- ✓ Our Quality Assurance procedures meet the requirements of ASME-SPPE, API-Q1, and ISO 9000 customers
  - ✓ Documented Quality Assurance System since 1979
  - ✓ SOP manual available for review
- ✓ Customer Reference requirement list tagged to each order
  - ✓ ASME checklist
  - ✓ QSM Quality Assurance Manuals, controlled and non-controlled manuals available upon request

For finished parts, our Metalcraft Enterprises facility meets ISO 9001:2008 Quality Management System standards and guidelines.

## COMMON APPLICATIONS

### AGRICULTURE

Axles	Construction
Augers	Attachments
Bushing Stock	Augers
Cultivators	Buckets
Harvesters	Dozers
Mulchers	Draglines
Planters	Excavators
Post Hole Diggers	Pavers
Scrapers	Pins/Bushings
Sprayers/Spreaders	Scaffolding
Tillers	Scissor Lifts

### MINING/EXCAVATION

CAT Subs
Conveyor Rollers
Crushers/Reducers
Compaction Equipment
Drill Stems
Drill Stabilizers
Loaders
Pilings
Pins/Bushings
Screeners

### OIL/GAS

Blowout Preventers
Choke & Kill Lines
Drill Rigs
Downhole Tools
Manifolds & Risers
Packers
Pig Launchers
Separators & Strainers
Skids/Sleds
Slug Catchers
Transmission Lines
Top Drives

## Value-Added Services Dedicated to Accuracy and Quality

Tubular Steel is a full-service business solution. Whether you are experiencing ongoing quality issues, struggling to meet growth forecasts, or you want to free up floor space, our fabrication team can help you meet your goals.

### Turn Raw Materials Into Functional Parts

- Materials require less first-stage processing equipment on site
- Customers devote less space to storing and processing material
- Little to no scrap cost to customers since we have systems and procedures to make efficient use of material
- Each Tubular Steel location performs its own in-house milling / drilling service, saw cutting, and torch cutting to any OD.

We also provide services such as:

<b>Sawing</b>	<b>Heat Treating</b>	<b>Tube Laser/</b>
<b>Galvanizing</b>	<b>Upsetting</b>	<b>Plasma</b>
<b>Beveling</b>	<b>Bending</b>	<b>Certified</b>
<b>Boring</b>	<b>Grinding</b>	<b>Welding</b>
<b>Tapping</b>	<b>Polishing</b>	<b>Milling</b>
<b>Miter Cutting</b>	<b>Pickling</b>	<b>Drilling</b>

## Metalcraft Enterprises

### Tubular Steel Facility and Expert Provider of Unique Fabricated Parts

Since 1951, Metalcraft has been a leading tubing fabricator of industrial and commercial parts, specializing in CNC bending. Metalcraft's company-wide focus on a "no downtime" supply chain and their pride in workmanship provides customers with high quality parts and a high level of on-time performance. All of these services are provided with precision, guaranteed and proven through Metalcraft's ISO 9001 Certification.

### Metalcraft Enterprises Expert Tube Bending & Fabrication

- Difficult parts with multiple bends
- Tight tolerances
- High level of cosmetics
- Straight sections, <2 times OD
- Thin wall tube, square and rectangle tube
- Tight tolerances for robotic welding
- Multiple low-factor, low D bends
- In-house tool and die shop
